

**JOSHUA STELZER DMD**  
AESTHETIC AND GENERAL DENTISTRY

November 29, 2010

Dear Mr. Stelzer,

When I first thought about changing dentists, I was quite apprehensive. Having been a patient of my former dentist for 46 years; changing to a new one was a big deal for me!

Let me take this opportunity to thank you and your staff for an enjoyable and painless transition. From my very first visit to your office, I found you and your staff extremely professional and highly qualified. You not only treated my dental needs but also spent valuable time educating me on the treatment and procedure. You reassured me and made me feel comfortable. I appreciate your willingness to answer my questions and address my concerns. I couldn't be more pleased with the results of my crowns and bridgework.

May all my future care be as comfortable as my past treatment.

kindest regards,  
Mary E. Hoff
